The more energy you require, the more solar panels you will need. There are many different brands of solar panel manufacturers. You can be sure that BNP Power only uses the highest quality panels available on the market. We import all our solar panels directly into Cambodia and pass the savings on to our clients.

Cambodia is suited perfectly for solar power because you get so many peak sun hours. Located 1500 Km (900 mi) north of the equator means intense, high in the sky sunlight for almost 6 hours a day. A "peak sun hour" is defined as an hour of sunlight that offers 1,000 watts of photovoltaic power per square meter.

After analysis, Anern made a customized solar solution for the customer: 5 kw off grid solar system. This system is simple to install. It only needs to absorb the light source through the solar panel and store it in the solar storage system, and then connect the load to supply power.

Our mission is to assist in the development of Cambodia by providing customers with reliable, high quality solar electric systems at a reasonable price with excellent customer and technical services.
