What is bslbatt 5kwh solar battery?

BSLBATT 5kWh solar battery has been recognized by consumers since its launch, with a compact body that can fit into any tight space and is composed of BYD/CATL LiFePo4 cells with a long service life of 6000-8000 cycles.

Why do power Lite batteries need a Uz BMS?

These cells have much less tendency to drift apart in voltage, capacity, and internal resistance over time. In addition, the UZ BMS allows connecting multiple Power Lite batteries in parallel, without ensuring they all have the same voltage beforehand.

Do Uz batteries need balancing?

Of course, this is also true of UZ batteries, though it is unnecessary to do as much balancing as many other batteries because of the high-quality cells used. These cells have much less tendency to drift apart in voltage, capacity, and internal resistance over time.
