7 Star Energy serves as a comprehensive solution provider in the renewable energy sector, offering a wide range of solar solutions tailored to meet the unique needs of our customers. We understand that transitioning to solar energy can be a complex process, which is why we provide end-to-end support and guidance every step of the way.

Solar energy potential for sustainable development in Afghanistan

The Afghan government should consider developing solar energy as a priority for energy security, socioeconomic development, and improving the quality of life in Afghanistan. [Read more Article](#)

[Seven Stars Energy Project](#)

The Seven Stars Energy project is located southeast of the City of Weyburn within the Rural Municipalities of Weyburn and Griffin. Electricity demand throughout the province of Saskatchewan is increasing and this project would help provide reliable, low emissions

electricity and have a significant positive impact on the local economy.

Team

We have supplied hundreds of solar products in Kenya and East Africa being solar water heaters, solar flood lights, solar street lights and solar garden lights. There is a seven stars product being installed every working day in Kenya. Major projects are in Nairobi and in parts of Kenya.
