The Slave Graves

In early August 2022 a revised plan to re-bury the remains was announced (ignoring the 2020 'Trans-Atlantic Slave-Memorial' plan). An area between St. Michael's Church and the Fuel Tanks was designated as the reburial site (right), and the plan announced was that the actual internment would take place on Saturday 20th August 2022, with a ceremony to be held the following day ...

Scatec reaches financial close for 103MW BESS in South Africa

Renewable energy provider Scatec has reached financial close for the 103MW/412 megawatt hours (MWh) Mogobe battery energy storage system (BESS) facility in South Africa. The company is preparing to begin the construction of the project, Africa's first and largest standalone dispatchable BESS system, near Kathu in the Northern Cape.

The Slave Graves

St Helena was the landing place for many of the slaves captured by the navy during the suppression of the trade between 1840 and 1872. Earlier in the century, St Helena was where Napoleon Bonaparte was exiled to. He died there in 1821. About 26,000 freed slaves were brought to the island, with most being landed at a depot in Ruperts Bay.

Battery Energy Storage System, South Africa

The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.

Skaapvlei Substation Battery Energy Storage System, South Africa

Contractors involved. Eskom Holdings SOC is the owner of Skaapvlei Substation Battery Energy Storage System. Additional information. Eskom Holdings SOC Limited, a South African power

utility, has floated a tender for a battery energy storage system (BESS) with a minimum of 80 MW/320 MWh usable capacity at South Africa's Skaapvlei substation, in ...

EDF SEI-Saint Leu - Battery Energy Storage System, France

Electricite de France is the developer of EDF SEI-Saint Leu - Battery Energy Storage System. Additional information. The project is a part of France's Energy Regulatory Commissions (CRE) tender to develop 11 large-scale storage projects with combined power of 50 MW and a storage capacity of 56.8 MWh.
