Solar-Powered Vatican: Holy City Installs Rooftop PV Panels

The Holy City has installed 2,400 photovoltaic solar panels to the top of one of the city's buildings. In doing so, the Vatican will reduce CO2 emissions by 225 tons a year and save 80 tons of oil. The solar panels are not visible from the ground, but the angels in St. Peter's Basilica may have to wear sunglasses to fight off the glare from the

Solar thermal solutions, first of its kind in East Africa

Ariya Finergy incorporates innovative technology to provide competitive solar heat for industrial demand. In partnership with Absolicon, we delivered a 330m2 aperture area solar thermal field to Iberafrica Power (E.A.) Limited in Nairobi,

...
