Analysis of new energy wind power generation

Analysis of new energy wind power generation

New Energy Wind Power Development Status and Future Trends

In order to better understand development status of wind power generation in various countries in the world and provide a reference for future research, first introduced the current development ...

Analysis and Research on Distributed Power Generation Systems

Distributed power generation systems are usually located near the power consumption site and use smaller generator sets. The article lists the use of wind, solar photovoltaic, gas turbine and ...

Stochastic and Extreme Scenario Generation of Wind ...

In the context of large-scale wind power access to the power system, it is urgent to explore new probabilistic supply-demand analysis methods. This paper proposes a wind power stochastic and extreme scenario ...
