Conventional Energies. Conventional energy generation is a "must" in today's world, which human beings cannot do without. At I-NOVA Energy we are aware of the need for migration towards generation towards renewable energies, but in this transition, it is important to collaborate in the optimization of conventional generation plants currently in operation, to reduce the ...

Probabilistic Projections of Sea-Level Contribution from a Stable

The Amery Ice Shelf drains 16% of the East Antarctic Ice Sheet and has been long considered stable to climate change due to its location in a narrow embayment and surrounded by cold ocean water. However, recent global climate model projections through 2300 indicate that extreme ocean warming in the region and subsequent ocean-melt-driven removal ...

Quantum in Antarctica

Quantum in Antarctica. The 40 day expedition has never been accomplished in this set-up before and was a monumental feat in clean energy and seismic data acquisition. INOVA's deployed Quantum nodes sustained a brutal climate and captured a major earthquake originating from nearby islands with a magnitude of 7.1.

HOME , Innova Energy

Somos uma empresa especializada em soluções inovadoras para o mercado de Energia Solar. Possuímos profissionais altamente capacitados a desenvolver um resultado de sucesso de acordo

com suas necessidades aplicando tecnologias sustentáveis. Fornecemos soluções integradas e multidisciplinares, executando gestão de projetos com expertise que você precisa.

Director and Co-founder at INOVA ENERGY · Electrical Engineer with Masters and PhD degrees applied to Wind Energy Systems, I have worked in projects ranging from stand-alone systems to wide integration of wind power into power systems. & It;br& gt;I currently work as an independent consultant in wind resource analysis, micro-siting, certification, permitting and technical due ...

Innova Energy turns to NatWest for £30 million UK solar refinancing

Innova Energy has refinanced its 57MW portfolio of UK rooftop and ground-mounted solar PV. The £30 million transaction - financed by high street bank NatWest - used SONIA (the Sterling

Overnight Index Average) as its reference rate. It is the first SONIA based project finance facility to be made available by NatWest and an alternative to

Renewable energy

Transporting fuel and oil to Antarctica is a costly and sometimes risky exercise. Before the introduction of renewable energy systems, Australian stations required 2.1 megalitres of diesel fuel every year for power and heating. Burning this fuel emitted around 5,500 tonnes of carbon dioxide into the Antarctic environment.

Inova Energy Group

Inova Energy Group is a Chicago-based, woman-led consulting firm focused on the future of energy and sustainability. Our work centers on energy efficiency programs, decarbonization, renewable energy, sustainability, climate planning, and community resilience.

Quantum in Antarctica. The 40 day expedition has never been accomplished in this set-up before and was a monumental feat in clean energy and seismic data acquisition. INOVA's deployed Quantum nodes sustained a brutal climate and captured a major earthquake originating from nearby islands with a magnitude of 7.1.

Innova, Novus secure planning approval for 24MWp solar site as ...

As such, Elm Trading took on Innova Energy's 16 ground-mount assets in the UK, which have a total capacity of 61.5MW. PowerOcean Single-Phase: Ensuring Safety and Easy Installation for the UK Market. In this webinar, we'll explore the advanced features and benefits of the PowerOcean Single-Phase home battery storage system. This session will

Quantum takes a leap

Quantum takes a leap to Antarctica! Our partner Innoseis has provided Quantum nodal seismometers to Clean2Antarctica. Their mission is to drive a solar energy car made from recycled plastic across Antarctica. As they travel across Antarctica, the crew will be placing Quantum units along their journey, to monitor seismic activity.

Wind power

The katabatic winds blowing from the inland of the continent make Mawson station ideally situated for power generation by wind turbines.. In 2003, Mawson had two 30 m tall, 300 kW wind turbines installed. This system could provide a total of 600 kW for both powering and heating the station.

Empresa

A INOVA ENERGY é uma empresa independente de consultoria e engenharia que oferece serviços especializados nas áreas de energia e

infraestrutura. No mercado desde 2008, a INOVA ENERGY possui uma equipe interdisciplinar especializada, com ampla experiência em projetos de infraestrutura, notadamente na área de geração de energia.
