

Solar Energy South Africa

Aquionenergy Palestine

Overview

Aquion Energy was a Bethlehem, Pennsylvania and Washington, D.C.-based company that manufactured sodium ion batteries (salt water batteries) and electricity storage systems. The company claimed to provide a low-cost way to store large amounts of energy (e.g. for an electricity grid) through thousands of.

The company was founded in 2008 by Jay F. Whitacre, a professor at , and Ted Wiley. They set up research and development offices in .

- .
- • .

The battery materials are non-toxic. As of early 2014, the used and relies on reactions. The anode was a titanium phosphate ($\text{NaTi}_2(\text{PO}_4)_3$). The.

The company set up manufacturing facilities at a former and in , initially proposing a capacity of 500 megawatt-hours per.
