## Overview

---

Who is Babcock International?

Babcock International traces its history back to the 19th century and the American heavy industrial manufacturers Babcock & Wilcox Company, which had been founded in 1867 by partners Stephen Wilcox and George Babcock to manufacture and market Wilcox's patented water-tube boiler.

Where is Babcock based?

The company has four operating sectors, with overseas operations based in Africa, North America, South America, Europe and Australia. Babcock is listed on the London Stock Exchange, and is a constituent of the FTSE 250 Index.

What does Babcock do?

And Babcock is built for that task. Now more than ever, what we do matters. Creating a safe and secure world, together. Babcock is a leading provider of critical, complex engineering services which support national defence, save lives and protect communities.

Is Babcock going out of business?

During February 2020, it was reported that the company was considering exiting the off-shore helicopter sector amid intense competition; Babcock had already reduced its Sikorsky S-92 and Eurocopter EC225 Super Puma fleets from 15 to seven helicopters and 13 to one helicopters respectively.

What role does Babcock play in international defence?

Babcock plays a critical role in international defence. In a world of significant geopolitical instability, national security has never been more important as defence requirements become increasingly complex to deliver. Ensuring those critical services are readily available, affordable and long-lasting is a vital task.

## What happened to Babcock & BAE Systems?

In October 2014, both Babcock and BAE Systems won contracts from the Ministry of Defence worth a total of £3.2 billion to maintain British warships, submarines and naval bases for the following five years. In December 2014, the Ministry of Defence alienated the non-aerospace assets of the Defence Support Group to Babcock.

carbon capture applications, pre-treatment of the flue gas is vital for the operation and economics of the process to result in optimum effectiveness of the technology. B& W's proven and well-established emissions control solutions can be integrated into your carbon capture system for optimized flue gas conditions.

## Babcock, Leola Aug. 6, 1933-Oct. 17, 2024 , Obituaries

ELDORA - Thursday, Oct. 17, 2024; the good Lord said - Leola, it's time for you to come home with me. He saw you were tired and broken hearted; it was time to come and join your husband; Duane Babcock who had passed 3 months ago on Thursday, July 4, 2024.

## B& W Chanute

Babcock & Wilcox supplemented its more than 155 years of experience in steam generation by adding the unique competencies of Optimus Industries, together with its manufacturing facility in Chanute, Kansas.
