Overview

Who is Enphase Energy?

Enphase Energy, Inc. is an American energy technology company headquartered in Fremont, California, that develops and manufactures solar micro-inverters, battery energy storage, and EV charging stations primarily for residential customers.

What is Enphase 365 Pronto?

Enphase's 365 Pronto Platform is software that dispatches independent professionals to perform renewable energy services, including EV charger installations. The charge for your At-home Consultation will be processed through Enphase's Store.

How many Enphase microinverters are there in 2022?

As of 2022, Enphase has shipped more than 48 million microinverters and deployed more than two million Enphase-based systems in more than 140 countries. In 2022, Enphase completed the acquisition of SolarLeadFactory LLC, a company that provides leads to solar installers. An Enphase M190 mounted and grounded.

Does Enphase offer at-home EV charger installation services?

Start by booking an At-home Consultation with an independent installation professional to receive a quote for your custom installation. Great news: Enphase's at-home EV charger installation services are available in your area. Unfortunately, Enphase's at-home EV charger installation services are not yet available in your area.

How did Enphase's leadership change in 2017?

Enphase experienced leadership changes in September 2017 when the President and CEO, Paul Nahi, announced his resignation from the company. Badri Kothandaraman was appointed the company's new president and CEO.

Kothandaraman was previously the company's chief operating officer.

When did Enphase start selling microinverters?

Enphase raised \$6 million in private equity, and in 2008, released its first microinverter, the M175. Their second generation product, 2009's M190, had sales of about 400,000 units in 2009 and early 2010. Enphase grew to 13% marketshare for residential systems by mid-2010.
