

Solar Energy South Africa

Bouvet Island 300w solar panel price in

Overview

BougeRV 300W solar panel uses the high-level 12BB cell design which has a 23% highest conversion rate. Makes the solar panel have a longer service life. Increase the cell receiving surface, thinner ribbon reduces the covered area by 22%. Also, it can charge a 12V battery or charge a 24/48V battery by wiring several solar panels in series.

BougeRV 300W solar panel uses the high-level 12BB cell design which has a 23% highest conversion rate. Makes the solar panel have a longer service life. Increase the cell receiving surface, thinner ribbon reduces the covered area by 22%. Also, it can charge a 12V battery or charge a 24/48V battery by wiring several solar panels in series.

Compared to a regular 72 cell 300 watt panel this panel is 15-20% shorter and lighter. Complete a large scale project with 300W solar panels, perfect for on-grid or off-grid projects. Capable of withstanding high winds, up to 2400 Pa, and snow loads of 5400 Pa.

A typical 300-watt solar panel measures around 1.6 square meters and can produce approximately 300 watts of electricity under standard test conditions. When combined into larger solar arrays, these panels can power homes, businesses, and even utility-scale solar farms, contributing to a cleaner and more sustainable energy future.

Unlock the power of the sun with 300 watt solar panels. These high-performance solar modules are designed to capture maximum sunlight and convert it into clean and renewable energy. With their impressive efficiency, reliability, and durability, these 300 watt solar panels offer an excellent solution for residential and commercial applications .

These 300+ watt panels come in a variety of footprints and voltages to suit your needs for high efficiency panels to create PV solutions. Call our sales department to find the best fit for your system!
