## Overview

---

Alterra Power Corp. a subsidiary of Innergex Renewable Energy Inc., is a diversified renewable power generation company based in Vancouver, British Columbia, Canada. It was formed in 2011 through the merger of Magma Energy Corp. and Plutonic Power Corp. It develops, owns, acquires and operates hydroelectric, wind, solar energy and geothermal projects. On February 6, 2018, Innergex Renewable Energy Inc. completed the acquisition of Alterra including all its assets. .

On 7 March 2011, it was announced that Magma Energy and Plutonic Power would merge to create Alterra Power Corp. Magma Energy was renamed Alterra Power and each shareholder of Plutonic Power received 2.38 shares of Magma for each Plutonic share held. At the time, the merged company owned two geothermal power plants in , and o. On 7 March 2011, it was announced that Magma Energy and Plutonic Power would merge to create Alterra Power Corp. Magma Energy was renamed Alterra Power and each shareholder of Plutonic Power received 2.38 shares of Magma for each Plutonic share held. At the time, the merged company owned two geothermal power plants in , and one in Nevada (since sold), one hydro plant and one wind farm in British Columbia and an option on a solar project in Ontario.

Toba Montrose HydroEast Toba River (123MW) and Montrose Creek (73MW) are two run-of-river hydroelectric plants 18 km apart, they have operated since in 2010 with a combined capacity of 196 MW and generate an average of 720 GWh of electricity annually, which is contracted to B.C. Hydro until 2045. Toba Montrose HydroEast Toba River (123MW) and Montrose Creek (73MW) are two run-of-river hydroelectric plants 18 km apart, they have operated since in 2010 with a combined capacity of 196 MW and generate an average of 720 GWh of electricity annually, which is contracted to B.C. Hydro until 2045. The Upper Toba Valley Hydroelectric project originally planned two renewable power facilities constructed 90 km north of at the headwaters of the first is on Jimmie Creek which flows west into and the second on the Upper Toba River. Installed capacity of the two facilities was to be 124 MW with an expected annual energy generation of 316 GW hr/yr. Alterra received an Energy Purchase Agreement from BC Hydro to construct

the Upper Toba facility. In 2013 Alterra also received an Energy Purchase Agreement from BC Hydro to construct the 62MW Jimmie Creek facility. In 2016 Alterra Power Corp. announced that the Jimmie Creek facility had achieved its full output of 62 MW. It is located at Solar power expansions  
In early 2011, Plutonic Power agreed, together with GE Energy financial Services, to purchase three proposed in Ontario from . The three plants will have a total capacity of 50 MW, divided between Amherstburg (10MW), Belmont (20MW) and Walpole.

In 2010, during the , Magma Energy acquired 98.5% of shares in the Icelandic geothermal power company . The deal created an opposition in . On May 21, 2010 Icelandic singer wrote an open letter in the newspaper , calling on the Icelandic government to "do everything in its power to revoke the contracts with. In 2010, during the , Magma Energy acquired 98.5% of shares in the Icelandic geothermal power company . The deal created an opposition in . On May 21, 2010 Icelandic singer wrote an open letter in the newspaper , calling on the Icelandic government to "do everything in its power to revoke the contracts with Magma Energy". The deal was approved by the Icelandic Government. In 2016, Alterra owned 67%, while the Icelandic pension funds held 33%. In 2019 Alterra sold off its shares in HS Orka to (MIRA).
