Smart Water , Xylem US

Integrate With Reliable Data. With the FlexNet[®] communication network, gaining more insights across your water system has never been easier. This low latency, utility-grade communication network allows you to remotely manage your system. Add in the Sensus[®] Smart Gateway Sensor interface to get access to more data than ever, even in areas that are hard to monitor.

Cape Verde: Energy Country Profile

Cape Verde: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. Nuclear power - alongside renewables - is a low-carbon source of electricity. For a number of countries, it makes up a large share of electricity production.
