Cambodia Launches Major Solar Power Plant Auction

Phnom Penh, Cambodia - The Cambodian government has announced a historic investment plan in solar energy projects worth over 210 billion baht by 2043. This is part of its Power Development Masterplan (PDP) to transition the country towards clean energy and reduce carbon dioxide emissions. The plan aims to increase the total power generation capacity from renewable ...

[Cambodia Solar Energy Profile](#)

Solar and Cambodia's National Strategic Development Plan. The Cambodian Cabinet approved four energy projects this past April, a US\$231 million hydroelectric power and three solar power projects with a combined, rated, maximum power capacity of 140 MW. The latter are expected to come online and dispatch power to the national grid by 2020 and

Summary of Regulation on Solar PV in Cambodia

With approximately 5.8 hours of peak sunlight a day, Cambodia possesses one of the best solar resources in the world. Together with high electricity rates, unreliable sources of power and skyrocketing demand for electricity, Cambodia is a very attractive market for investors in the energy sector. The successful completion last year of the
