### Solar panels: Are they worth it? - MoneySavingExpert

An average home in the UK would need an air-source heat pump that requires roughly 4,000kWh of electricity a year to power it - which you can get with a 5.6kW solar panel system. But this will leave little extra energy to ...

### Solar power 101: What is solar energy? , EnergySage

Solar energy comes from the limitless power source that is the sun. It is a clean, inexpensive, renewable resource that can be harnessed virtually everywhere. Any point where sunlight hits the Earth's surface has the potential ...
