# Cellevia power French Polynesia

## Overview

---

What is French Polynesia's energy transition plan?

French Polynesia's energy transition plan has three main objectives: Change the energy model, by gradually replacing the use of fossil fuels with renewable energies in all activities.

What is cellevia power?

CELLEVIA POWER is a brand of switching network adapters and desktop and watertight power supplies (for LEDs). Those power supply units have long life and high quality. Thanks to extensive product portfolio, the CELLEVIA power supply unit can be used in almost any industry: electronics, telecommunications and electrical engineering.

Does French Polynesia rely on hydrocarbons?

French Polynesia, like most island territories, is highly dependent on hydrocarbon imports. In 2019, 93.8% of energy consumed in the archipelagos came from imports of various petroleum-based fuels. The renewable energy penetration rate in power generation stood at 28.78% in 2019. This figure has remained stable over the last five years.

How is electricity produced in French Polynesia?

Electricity production in French Polynesia is still heavily dependent on fossil fuels despite the development of renewable energy sources (REn). Electricity production and consumption are unevenly distributed over the territory as they are correlated with the geo- graphical distribution of the population.

Is biomass a source of electricity in French Polynesia?

Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. French Polynesia: How much of the country's electricity comes from nuclear power?

Nuclear power – alongside renewables – is a low-carbon source of electricity.

Where can the cellevia power supply unit be used?

Thanks to extensive product portfolio, the CELLEVIA power supply unit can be used in almost any industry: electronics, telecommunications and electrical engineering. Transfer Multisort Elektronik sp. z o.o. is an importer of Cellevia Power products.

### French Polynesia , Powertec Information Portal

French Polynesia, situated in the South Pacific, is made up of 121 islands and atolls spread across more than 2,000 kilometres. The archipelago's geography and dispersed population contribute to the complexities faced by its telecommunications and technologies sectors. The population of around 305,000 is unevenly distributed, with the majority living in Tahiti, the ...
