program requires a structure have at least 20 contiguous parking spaces, so the location was dropped.

[Your Guide to APS Solar Rate Plans](#)

Picking the right APS solar rate plan after installing solar panels depends on your energy usage habits and the APS plan you had before solar. If choosing an APS time-of-use solar rate plan, consider using appliances during off-peak hours to save money. To get the best out of these plans, refrain from operating heavy machinery during on-peak hours.

Clenera, APS sign PPA for Snowflake A solar-plus-storage project

Clenera expects to reach ready-to-build status at the project in the third quarter of 2025, and reach commercial operation in mid-2027, at which point APS will acquire both solar and storage

Solar panels. Am I getting a good deal or should I back out?

The panel warranties, installation warranties, and solar companies are somewhat stacked against the general public. Salesmen prey on people's wants and desires to use a "green" product and to "save the environment"(you should look at how panels are made), but they quickly gloss over the downsides and issues people have, mostly with the
