

Solar Energy South Africa

Commercial solar Tunisia

Overview

Can Tunisia build a large-scale solar project?

Tunisia's Ministry of Industry, Mines and Energy has kicked off a new procurement exercise for large-scale solar. Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW.

What is the Tunisian Solar Plan?

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

Does Tunisia support solar?

Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019. The country's cumulative installed PV capacity stood at just 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

Where is the first large scale solar power plant in Tunisia?

The first large scale solar power plant of a 10MW capacity, co-financed by KfW and NIF (Neighbourhood Investment Facility) and implemented by STEG, is in Tozeur. TuNur CSP project is Tunisia's most ambitious renewable energy project yet.

When do solar projects start in Tunisia?

Interested developers have until Jan. 15 to submit their project proposals. Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

Does Scatec own a solar project in Tunisia?

Under construction In 2019, Scatec was awarded 20-year PPAs, with options for 10-year extension, with the Tunisian state utility STEG for the two solar projects totalling 120 MW. In August 2024, Scatec signed a partnership agreement with Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, to jointly develop and own the projects.
