Conch Arm Solar Street Light Bracket

Overview

What types of brackets are available for street lighting?

Call us to discuss your project. Quality engineered street lighting column brackets in high-grade tubular steel. From standard pole and wall bracket to combined GRP service boxes. Discover our range of wall & pole mounting floodlight brackets. Sign brackets for all types of signage, including cranked, post top, offset and stand-off brackets.

What types of brackets are available for a flood / street light?

Column spigot adaptors & reducers, Amenity post top brackets, Flood light brackets, Highway brackets & Outreach Arms, plus bespoke designs available. We manufacture a wide range of galvanised lighting brackets to ensure your Flood / Street or Amenity light is securely attached to the street lighting column / wall.

How do I choose the right lighting bracket?

In order to correctly specify / purchase the correct lighting bracket you will need to know the column diameter / column spigot size and maximum head load of the column. A selection of our most popular lighting brackets are listed below. However, please contact our sales team for further information and technical support. You may also like.

Where are Pudsey Diamond lighting brackets made?

Whatever the situation, whatever the application, Pudsey Diamond manufacture an extensive range of lighting column brackets for your lighting bracket and sign-post needs. We design and manufacture all our brackets here in the UK, and have in-house painting facilities, so we can finish any of these brackets to suit your requirements.

What are the different types of lighting brackets?

Lighting Brackets - Column spigot adaptors & reducers, Amenity post top

brackets, Flood lighting brackets, Highway brackets & Outreach Arms.

Do you offer a bespoke lighting bracket design service?

As well as stocking a full range of lighting brackets, we also offer a bespoke bracket design service by our in-house engineers. In order to correctly specify / purchase the correct lighting bracket you will need to know the column diameter / column spigot size and maximum head load of the column.
