What is Concord Green Energy?

Concord has been building transit-oriented large-scale urban communities for over 30 years. More than 10 years ago, Concord created Concord Green Energy to power its future communities and the cities they are built-in. Transportation needs are also shifting from fossil fuels to renewable green energy.

Will Concord Green Energy's Wedgemount hydroelectric project be online?

Concord Green Energy's Wedgemount hydroelectric project will also soon be online. The Amisk Hydroelectric project in Peace River, Alberta will be the Province's largest hydro project in history and will effectively double Concord Green Energy's portfolio once complete.

Why should Concord Pacific invest in green power projects?

“Building green power has been central to Concord Pacific’s commitment to sustainable development. These projects are valuable additions to our portfolio of over 20 large-scale renewable energy projects currently in operation and development.
