

Solar Energy South Africa

Costa Rica vitol power

Overview

Costa Rica receives about 65% of its energy from hydroelectric plants alone due to its extreme amounts of rainfall and multiple rivers. As the largest source of energy, represents the most important source of energy in the country, but after inauguration of the Reventazon Dam, the only big hydro project remaining in the planning stage by the

Who is Vitol?

For over 50 years Vitol has served the world's energy markets. As a displacement fuel, gas will be a key part of the energy transition. A strong and experienced power trading team in the world's largest markets. We are determined to be an active participant in the energy transition. For our story, what we do, how we work, why and who we are.

How much power does Vitol have in the UK?

Read more Vitol has 3.5GW of thermal generation capacity in the UK, held through our power generation company VPI, which is expanding into Ireland with the construction of a 275MW Open Cycle Gas Turbine (OCGT) power plant in County Westmeath, Ireland.

How does Costa Rica produce electricity?

Costa Rica was one of the first countries in the world to produce its electricity from 100% renewable sources. Two thirds of the energy generated by their national electricity supplier, Instituto Costarricense de Electricidad (ICE), comes from hydropower.

How much power does Reventazón provide in Costa Rica?

Reventazón Hydropower Plant in Siquirres with a generation capacity of 305.5 MW; this plant can supply power for 525,000 Costa Rican households. ICE provides power service for 94.4% of households, businesses, and industries in the country. This numbers are huge if we compare them with the average 14% percent coverage in 1949.

Are there private energy companies in Costa Rica?

Though there are a few large private energy companies in Costa Rica, most primarily generate power to sell to ICE. Consorcio Nacional de Empresas de Electrificación de Costa Rica (Conelectricas), formed in 1989, is a union that aims to develop hydroelectric projects.

What makes Vitol a great company?

A multi-phase upgrade at Vitol's VPR Energy refinery in Rotterdam has transformed it into one of Europe's best environmentally performing sites. Our people are our business. They are a key differentiating factor that drives our success. It is their ideas, dedication and the way they work together, day in and day out that makes a difference.
