Energy Services , Sustainable , Net Zero Future

This integration allows us to provide comprehensive solutions that optimise buildings in complex and critical environments at any sustainability stage. With Dalkia Energy Services, you can navigate the complexities of the net-

zero transition confidently, ensuring efficient energy management for a more sustainable future.

Optimize the energy efficiency of your commercial building

Ensuring the energy efficiency of all your buildings is our objective: together, let's build an action plan adapted to your needs! The energy consumption reduction targets depend on the current situation of your buildings and are set by law for some countries (in France: - 40% by 2030; - 50% by 2040; - 60% by 2050).

Decarbonized energy solution

Dalkia has been awarded Phase 2 by ADES, expanding to more campus sites and is now in implementation phase. Simultaneously, negotiations for Phase 3 are ongoing. Complementing these efforts, Dalkia launched an Energy Awareness Campaign at the university, promoting sustainability and engaging stakeholders in energy-conscious practices.

Dalkia promotes energy efficiency industry

Dalkia, a subsidiary of the EDF Group, supports its customers in their energy and digital transformations through its two business lines: the development of local renewable energies and energy savings. Dalkia develops renewable and

recovered energy sources of territories and provides long-term support to its customers to help enhance their
