# Dali Wind Power Generation Phase II Project

## Overview

---

Will Sinopec participate in Shaanxi Dali distributed wind power project?

In October, Sinopec Star Co., Ltd. announced that it will participate in the development of Shaanxi Dali distributed wind power project with a total installed capacity of 20 MW, which will become Sinopec first wind power project.

Which wind farm is regarded as the 'Sino-French project cooperation model'?

8. Yunnan Dali Zhemoshan Wind Farm (45.75 MW), the first wind power project approved by Yunnan province, is regarded as the "Sino-French Project Cooperation Model" and won the "2014-2015 National Quality Investment Project Award".

What is China's first offshore inter-tidal wind farm?

7. Jiangsu Rudong Wind Farm (150 WM) of CHINA LONGYUAN, China's first offshore inter-tidal wind farm, was selected as one of the "100 Classic & Choice Projects" in the Celebration of the 60 th Anniversary of China.

How many MW distributed photovoltaic power station in Jilin oilfield?

According to incomplete statistics, the 15 MW distributed photovoltaic power station in Jilin oilfield was successfully connected to the grid in 2018, which is the first large-scale distributed photovoltaic power station of CNPC.

Why was offshore wind power development slow during the 12th Five-Year Plan?

During the 12th Five-Year Plan period, the development of offshore wind power was slow due to immature technology, high investment cost and lack of professional development and maintenance team.

What percentage of offshore wind power projects coincide with oil & gas projects?

According to IEA, about 40% of offshore wind power projects coincide with offshore oil and gas projects, including wind turbine foundation construction, and equipment maintenance and supervision.
