Overview

Who is Delta Energy Systems (Germany)?

The Delta Group is an international high-tech company with more than 80,000 employees worldwide and a turn-over of 7 billion USD. Since 1999, Delta Energy Systems (Germany) - a sub-sidiary of the Delta Group - has invested in research and development in the solar inverter program in Germany.

Who is Delta Energy?

Delta Energy is a company with great potential and great purpose. Our vision is to establish ourselves as the world leader in recovering specialty chemicals from end-of-life tire rubber.

Who is Delta Energy Group LLC?

While at Bridgestone, Bobby was introduced to Delta-Energy Group to provide engineering support to achieve sustainable commercial scale. Delta Energy Group LLC is privately held and principally owned by Castleton Commodities International and Bridgestone Americas.

What makes Delta Group unique?

As a gateway to Asia, India, Australia and Europe markets, Delta Group synergizes advanced technologies and ultra-efficient production between European and Asian subsidiaries to power our innovation and competitiveness.

Delta energy group Belgium

Innovative Resource Recovery

Delta Energy generates 85% less GHG emissions than conventional carbon black production. Our high quality carbon black meets the demanding performance requirements for use in passenger tires, which is our largest customer segment. Delta Energy's recovered carbon black provides a true circular solution for the tire industry.

A Sustainable Alternative to Traditional Carbon Black

Delta Energy's proprietary low temperature reaction process preserves key properties like surface area and dynamic void volume that enable DE-Black to replace or supplement traditional carbon blacks used in rubber products. DE-Black behaves similarly to traditional carbon blacks in both natural and synthetic rubber compounds.
