The Group also runs an international biomass supply chain business. The company is listed on the and is a constituent of the

What happened to Drax Power Station?

One significant change was the emergence of vertically integrated companies, combining generation, distribution and supply interests. In certain cases, it became necessary for generation assets to be divested, and so in 1999 Drax Power Station was acquired by the US-based AES Corporation for £1.87 billion (US\$3 billion).

Who owns Drax Power Station – battery energy storage system?

The Drax Power Station – Battery Energy Storage System is being developed by Drax Power. The project is owned by Drax Power (100%), a subsidiary of Drax Group. Drax Power is the owner. Drax Power is the developer.

Why did Drax push back the start of new gas-fired power stations?

In November 2024, Drax Group Plc pushed back the start of three new gas-fired power stations in South Wales, Suffolk, and Bedfordshire to next year because of delays in getting the units connected to the grid. Drax had previously stated that the facilities would start in Autumn 2024. Drax Group's key asset is Drax Power Station.

Is Drax scraping Europe's largest gas plant after climate protests?

Energy Live News. 30 July 2019. Retrieved 26 January 2021. ^ Ambrose, Jillian (25 February 2021). "Drax scraps plan for Europe's largest gas plant after climate protests". The Guardian. ^ "BBC Panorama: The Green Energy Scandal Exposed". BBC Panorama. 3 October 2022. Retrieved 4 October 2022.
