## ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

## Overview

---

Who is DNV - energy systems?

DNV - Energy Systems | 140,836 followers on LinkedIn. Transitioning faster to a deeply decarbonized energy system | We provide assurance to the entire energy value chain through our advisory, monitoring, verification, and certification services.

Who are DNV?

DNV have been providing independent expert advice on wind energy since 1984. DNV has offices in 18 countries, and is recognised as the leading independent authority. Our clients include major wind turbine manufacturers and developers, banks and lenders.

Where is DNV headquartered?

From offices in all corners of the world and operations in more than 100 countries, we work with some of the world's leading companies. We are headquartered in Oslo, Norway. See all our offices here. DNV's commitment to diversity and inclusion is both an ethical choice and a business decision.

What makes DNV a trusted partner?

Our collective deep and broad knowledge among 12,000 employees in DNV enables us to fulfill our purpose to safeguard life, property, and the environment. Our more than 4,000 dedicated experts working closely with our customers in energy make us the trusted partner to tackle the biggest global transformation in a generation: the energy transition.

What products does DNV offer?

DNV products include the Forecaster, which is used to provide short term forecasts of the wind energy production of wind farms, DNV Bladed, DNV WindFarmer and DNV SCADA, a leading independent wind farm management, information and reporting tool.

## Who are DNV's clients?

DNV has offices in 18 countries, and is recognised as the leading independent authority. Our clients include major wind turbine manufacturers and developers, banks and lenders. We have acted as Banks and Owners Engineer for over 18,000 MW of operating wind farms worldwide, and have carried out energy resource assessments of over 80,000MW.
