Home

Over the past 2 decades, the Dominican Republic has opened its borders to international business as part of its strategy for economic growth. For example, tax incentives exist where the Dominican State recognises that a foreign investment and technology transfer contributes to domestic economic growth and social development.

Dominican Republic Market Analysis :: Fitch Solutions

At Fitch Solutions, we forecast that the Dominican Republic's current account deficit will widen from 4.1% of GDP in 2022 to 4.3% in 2023, as a substantial slowdown in US domestic demand will depress Dominican goods export growth, tourism inflows and remittance inflows.
