Should draconic evolution power storage get bigger?

Draconic evolution power storage is cool and all but I think it should get bigger as it charges up. There's no difference when it's full so might as well build it for looks and leave it unpowered. I just don't see the point of storing that much power anyway.

Is draconic evolution a good mod?

I'm quite new to the modded minecraft world. Draconic evolution is one of the mods that caught my attention right from the beginning. I got the setup to get good amounts of draconium ingots in my SF3 world, but my problem is the insane amounts of energy it requires for everything.

Draconic Evolution: Storing Energy

Draconic Evolution provides a unique twist on storing energy. The Draconic Energy Core consists of a central 'orb' and a number of Energy Core Stabilizers positioned around the core. Energy Pylons are used to transfer power in and out of the Energy Core. There are eight tiers, each providing a greater amount of storage, and each requiring a greater amount of materials to ...

[Project Ozone 3] What are some extremely large power storage and power

[Project Ozone 3] What are some extremely large power storage and power solutions that aren't from Draconic Evolution? Question I'm planning on putting a shield generator around my RAK factory island and with 500rf/t/block I'm going to need a large power supply to back it up.

The beauty of getting that Draconic Evolution reactor dialed

I just started using Draconic Evolution and I'm struggling to output any real power. I cut a bit too low on the input and lost integrity, which cost me the reactor + 2 tier-3 draconic energy storage cells. Pretty expensive loss. The reactor changes as the reaction goes on. iirc it slowly starts producing more power and slowly starts

Is it possible for the Draconic Energy Core to explode?

I haven't used the Draconic energy core yet, but I'm a little hesitant on building one because I'm playing on a public server with no way to rollback. I realize this is only an energy storage multiblock, but after my experience with IC2 nuclear reactors I better be safe than sorry.

Why would i use draconic evolution? : r/feedthebeast

Seriously, what can DE do and Modular Powersuits cant do. Now you may say that "Oh but staff of power can hit 105 damage and also the energy storage is so good" and yes the energy system is good but the mod itself is really like "oh you got nothing to do? Well we have cancer if ...

Draconic crafters not receiving power : r/feedthebeast

Failing that, I'd set up and test a storage device (ex: Vibrant Capacitor Bank) and power the injectors ONLY from that, using different things. I'm playing a different mod pack, but DE should be DE should be DE. I'd try Draconic Evolution power first (crystals), if that didn't work, I'd try Flux plug/point network, and if that didn't work

Each method worked to charge the core up to that point of 0.01%, and each method for outputting that energy to auto-crafters, auto-compressors, auto-hammers and sieves, and a small isolated Refined Storage setup.

Draconic Evolution Energy Storage Build : r/feedthebeast

It definitely took sometime to dig this out, build the entire sphere, and then start to build the energy storage/platform around it. In the end i just couldn't stop looking at it! Next goal is to have a really cool RF Tools build out including computer craft and such to activate draw bridges and such when a transmitter is dial.

Energy Pylon

The Energy Pylon is a block added by Draconic Evolution. It is used to transport energy in and out of Energy Cores. A block of Glass must be placed on top of it to make it properly function. The direction of energy can be observed by the particle effects of the translucent sphere: if they are moving inwards then it will take energy out of an Energy Core, while energy will move into the ...

Is Draconic Evolution worth trying? What good is it?

Personally, I don't care for DE and don't think it's fun. It's excessively powerful for the sake of being stronger than everything else. The armor surpasses everything, the Staff of Power is insanely powerful, the power storage is so excessively big you'll never fill it and you'll never need that much power even if you played for ten years, you get the idea.

Draconic Evolution 3 Beta is now live on Curse : r/feedthebeast

Yeah, no. With the changes outlined, Draconic Evolution isn't worth. Getting rid of "no damage as long as you have energy" is game-breaking. Do not install this version of Draconic Evolution. Just stick with the old one or find a different mod for powered armor and weapons.
