Production of renewable energy in Mauritius

Already firmly established on neighboring Reunion island, for several years now Akuo has been developing operations on Mauritius, which is experiencing rapid energy changes. In 2019 Akuo commissioned the island's largest solar power plant Henrietta. This 17.5 MWp project supplies the grid daily by selling the power generated to the Central

Mauritius

Waste-to-Energy: Mauritius produces about 500,000 tons of solid waste per year and its only landfill site is nearly full. Accordingly, in 2016 CEB issued a Request for Proposals for a 24 MW waste-to-energy project. The Mauritius Research Council also conducted research into waste-to-energy projects, including one on the use of arundo donax
