EcoStruxure for Microgrids Presentation , Schneider Electric

The popularity of microgrids is growing rapidly, especially for use in island and remote electrification, critical sites, and other diverse applications. Key to local green energy production, microgrids are facilitating the development of renewable solutions. This panel discussion will address investment, development, R& D, and implementation factors ...

EcoStruxure Microgrid Advisor (EMA) Controller: Reference--HMIBMO64TPMA1. Features: Easy-to-install, standard power supply, and network connectivity . Compatible with tested DERs--local electrical energy production sources (PV), controllable loads, and battery energy storage systems . Fully compatible with Schneider Electric EcoStruxure

Offer Overview

Energy Optimization. EcoStruxure Microgrid Flex, when connected to the grid, feeds critical DER information to the optimization engine, which optimizes DER operating schedules to provide the best mix of resources for renewable power self-consumption, time shifting for energy storage (i.e., energy arbitrage), demand charge management, demand response programs, or grid ...
