PORTFOLIO

Central Coast Community Energy (3CE) is a community-focused agency committed to providing customers with more control over their electricity needs, reducing greenhouse gas emissions, supporting the growth of clean and renewable energy, and accessing additional economic and environmental benefits

No-cost Technical Assistance

Optony was selected by the U.S. Department of Energy, DOE, as the provider for the Technical

Assistance Partnership (TAP) program for the Western Region of the United States. The purpose of the TAP is to provide DOE-funded direct technical assistance for industrial facilities and other large energy users to support on-site energy project

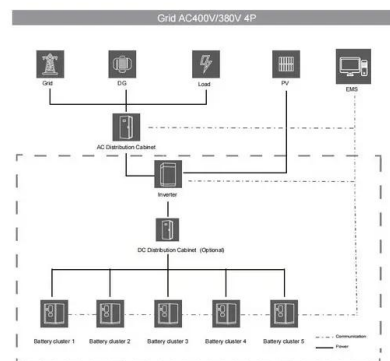

PORTFOLIO

Optony was selected by the Catholic University of America to evaluate options for solar projects on two campus-owned parcels. The University's on-campus electricity consumption was already offset by a combination of onsite solar and wind renewable energy credits, but the University desired to develop a solar project that would maximize University environmental benefits, while ...

PORTFOLIO

From 2015 - 2018, Optony worked with the County to review the electrical impacts, and to design both cost saving and building electrical solutions to enable further EV charger expansion at the County's principal fleet hosting sites. Battery energy storage systems are a viable solution to respond to EV circuit overload while providing

[Beyond the Tailpipe \(Part 1\): A Preview](#)

Optony's Lifecycle Carbon Analysis is set to decode the realistic cradle-to-grave carbon footprint of these zero-emission. Are electric cars actually more environmentally friendly? We took a comprehensive approach, observing the Cradle-

to-Grave scientific model. Helping make tomorrow's clean energy goals a reality, today.
