How much should a 3kW solar system cost? : r/solar

I'm in solar sales and I would never do that to someone. In California, we aim for 90% because a certain portion of California energy comes from a clean energy source that only cost 4¢ a kilowatt, so using solar panels that cost about \$1,380 each to offset that makes no sense. Again, this is for California, but the overage cap here is 120%.
