Enegen power systems Heard and McDonald Islands

Overview

Who are enegen power systems?

Enegen Power Systems (formally Dunstan Thomas Energy division) is a leading U.K. based provider of scheduling, wholesale and Balancing Mechanism dispatch and commercial optimisation software that works seamlessly with our adaptive portal platform to provide a complete optimisation, dispatch and reporting system for the energy sector.

What is Enegen?

Enegen is a company known for delivering and supporting robust and innovative software solutions for the energy industry (info@enegen.co.uk).

What makes enegen a successful company?

Enegen is dedicated to the energy industry. Its success is its people. Dave has been involved with the power industry since 1996. Over the past twenty-five years, Dave has successfully managed organisations involved in the sales, implementation and support of commercial energy IT systems throughout the UK and Europe.

What makes enegen unique?

Enegen's software meets this challenge with a unique blend of innovation, experience and knowledge. Together with its ecosystem of partners, Enegen is uniquely positioned to deliver a turnkey solution for anyone looking to enter the UK electricity market.

Environmental Monitoring Services and Control Systems

Electric power monitoring systems are essential to assess and measure plant emissions continuously and according to local emission regulations. For instance, the demand for effective smoke and dust monitoring systems is on the rise at thermal power plants, as traditional

monitoring technologies are unable to detect human and environmental risks

HEARD ISLAND AND THE McDONALD ISLANDS: A ...

McDonald Islands. Clarke visited Heard and McDonald Islands for a few days in March 1980 as part of a National Mapping expedition to the islands and his samples are housed at Monash University. Geologists J. Barling and G. Wheller spent two months on the island as part of the helicopter-supported 1986-87 Heard Island ANARE.
