What is energy in Monaco?

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco . Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France.

What is Monaco Energy Renouvelables?

To support Monaco's transition, the Prince's Government and Société Monégasque de l'Électricité et du Gaz (SMEG) pooled their skills in 2017 to create Monaco Energies Renouvelables (M.E.R.), with the aim of giving Monaco 100% green electricity production capacity equivalent to the territory's consumption.

Does Monaco use fossil fuels?

Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France. Monaco's sole national power company is Société Monégasque de l'Electricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services.
