Solar company urges net metering to incentivize renewables

The government has indicated it is targeting 30 percent of power in The Bahamas being produced from renewable energy by 2030 - from

a mix of residential, commercial and utility-scale providers. Net metering should increase the predictability of the return on investment of installing the renewable energy system, given that customers receive

Wartsila to install 25-MW/27-MWh storage solution for Bahamas utility

The contract was awarded by Bahamas Power and Light Company (BPL), the electric utility of the archipelago nation. Set to work under a full engineering, procurement and construction (EPC), Wartsila will supply and install 27 units of its Wartsila GridSolv Quantum modular energy storage system.

Our History , A Legacy of Practical Energy Innovation , ESG

Energy Systems Group, LLC is formed as a non-regulated, wholly-owned subsidiary of Southern Indiana Gas & Electric Company (SIGECO) in April 1994. ESG becomes profitable within the first five months of operation. 1996. Ownership is transferred to SIGCORP, a holding company that helps facilitate company growth.

[Bahamas: Energy Country Profile](#)

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy

consumed per unit of gross domestic product.

Sustainable Infrastructure Solutions , Energy Systems Group

The Frederick Winchester Service Authority's (FWSA) \$47 million energy performance contract with Energy Systems Group (ESG) included the design and construction of comprehensive energy efficiency and infrastructure improvements at its Opequon Water Reclamation Facility. The 12.6 million gallon per day enhanced nutrient removal facility has
