

Solar Energy South Africa

Entrix gmbh Türkiye

Overview

How does Entrix optimize the value of your energy assets?

We at Entrix optimize the value of your energy assets in real-time. Based on predictions of the energy system and energy markets, our solution trades your assets' capacity into the right markets at best possible prices – tailored to the changing circumstances of every single day. In everything we do, we take a full asset lifecycle perspective.

Why should you use Entrix?

By working with Entrix, you benefit from trading strategies that take into account your specific requirements, for example, the intended life-time of your hardware, other assets in your portfolio, or your risk-return-profile. “We partnered with Entrix on our very first battery storage project.

How many investors does Entrix have?

Entrix has 3 investors including ABACON CAPITAL and Enpal. When was the last funding round for Entrix?

Entrix closed its last funding round on Sep 6, 2023 from a Seed round. Who are Entrix's competitors?

Alternatives and possible competitors to Entrix may include Coreshell Technologies, enspired, and Aquion Energy.

Unlocking Profit Potential in Wholesale Energy Markets: Virtual ...

The graphic below shows an exemplary day with real trades executed by Entrix. One can see that the algorithm becomes more active the closer we move to the delivery period and that prices evolve a lot - leading to Entrix selling for multiples of the average price for some specific delivery periods (e.g. at 10 am).

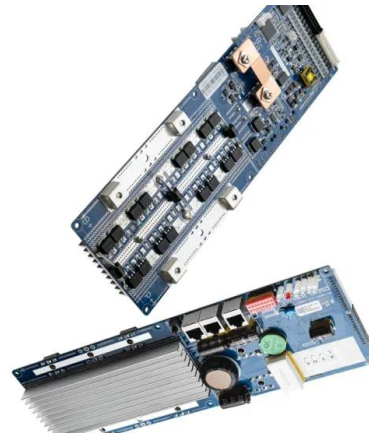

Optimisation and Trading Platform for Energy Storage

The Entrix team supported us along the entire development process from the design and due diligence phase during our acquisition up until the successful sale to its today's owners. Their deep battery and energy markets expertise for example helped us to define the battery configuration and warranty parameters with the hardware manufacturer."

Enpal and Entrix Launch Their Virtual Power Plant (VPP)

Enpal and Entrix have joined forces under the

joint venture Flexa to introduce a next-generation Virtual Power Plant (VPP) for residential households. This pioneering initiative connects solar panels, home battery storage systems, electric vehicles, and heat pumps into an intelligent, decentralized energy network. By optimizing energy use and market participation, the VPP ...
