ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a tall, grey Energy Storage System (ESS) cabinet. It features two vertical green lines running down the center. In the middle, there is a blue hexagonal shape with a black lightning bolt symbol. At the top right, the letters 'ESS' are written in green. At the bottom, there are two yellow triangular warning symbols with black lightning bolts. The cabinet is mounted on a black base.

Overview

Where is Eos headquartered?

Eos was founded in 2008 and is headquartered in Edison, New Jersey. For more information about Eos (NASDAQ: EOSE), visit eose.com. IEP is a technology agnostic, independent power producer which seeks to build, own and operate a portfolio of generation assets that offer investors attractive financial returns.

Does Eos have a 216 MWh order with City Utilities?

This follows the recent 216 MWh order with City Utilities, showcasing Eos' growing presence in the energy storage market. Eos Energy Enterprises, Inc. is accelerating the shift to American energy independence with positively ingenious solutions that transform how the world stores power.

What makes EOS a good battery?

Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications. It's how, at Eos, we're putting American ingenuity to work every day to create a positive future for everyone.

What is Eos storage & how does it work?

Eos storage systems plus Solar and Wind reliably solve the intermittency of green sources—while helping you gain community support. Non-wired Eos storage ensures critical supply during outages and congestion on today's networks—and the transition to tomorrow's infrastructure.

How much does EOS cost?

It's how, at Eos, we're putting American ingenuity to work every day to create a positive future for everyone. * Assumes \$1,481/kW installation cost, 6000-8000btu/kWh heat rate, and \$5-20mmbtu fuel cost over ~14M kWh Eos

equivalent output at 1MW 4-hour duration. Li-ion conservative cost-out assumed.

Why is Eos partnering with IEP & CEC?

“IEP and CEC are at the forefront of North American long-duration energy storage, and their partnership has been invaluable as Eos transitions into a profitable operating company.

Manufacturing

It's why we put our Eos Ingenuity Park facilities in Turtle Creek, PA, where our production teams are hard at work building fully made-in-America energy storage products. And it's how we align our long-term goals with the day-to-day management of materials, operations, and people. Eos is accelerating the shift to clean energy with

Local Generation

That's what we considered in the design of Eos battery energy storage systems. Our underlying Znyth battery technology is both nonflammable and fully recyclable, so it's safe for local consumers--and the global environment. And our solutions, particularly the containerized Eos Cube, are inherently simple and durable--they install with
