Liberia Breaks Ground on First Utility-Scale Solar Plant

In a significant move towards sustainable energy, Liberia's government, in partnership with the Liberia Electricity Corporation (LEC) and the World Bank, officially launched the construction of the country's first utility-scale solar power plant on October 11, 2024. The groundbreaking ceremony for the Regional Emergency Solar Power Intervention Project ...

Captan's Fix to Energy Crisis: Liberia Needs to Buy Electricity

...

Despite the expenditure of nearly a billion United States dollars to revive Liberia's shattered energy sector that was destroyed as a result of the 14 years civil conflict, the supply of stable electricity remains far from coming to fruition. This makes the LEC, the public utility corporation responsible to ensure the generation, supply and
