Foldable photovoltaic panel bracket installation diagram

Overview

How do you install a solar panel bracket?

Align the Z-shape bracket with solar panels holes. Put a washer on the M8*16 bolt and thread it through the Z-bracket and the solar panel. Then put another washer onto the bolt and finally a nylon lock nut. Tighten making sure the Z-brackets supports are pressed firmly against outside of the solar panel. Repeat 1 to 4 for each of the four Z-brackets.

Why should you install a solar panel bracket?

The purpose of installing the bracket is to better fix the solar panel. If there is a more convenient and feasible method to fix the solar panel, PVMars will definitely recommend it to you, and effective solutions are based on solar panels' characteristics and your on-site installation environment.

How do you attach a Z-bracket to a solar panel?

ALIGN THE Z-SHAPE BRACKET WITH SOLAR PANELS HOLES. Put a washer on the M8*16 bolt and thread it through the Z-bracket and the solar panel. Then put another washer onto the bolt and finally a nylon lock nut. Tighten making sure the Z-brackets supports are pressed firmly against outside of the solar panel.
