Fronius Primo GEN24 3.0 Plus

The Fronius GEN24 Plus hybrid inverter enables energy self-sufficiency for electricity, heating, cooling and e-mobility with the use of a battery system. This means that the Fronius GEN24 Plus with Full Backup* has a backup power solution that even large consumers can use, such as heat pumps. What's more, the Multi Flow Technology lets the hybrid inverter supply parallel energy ...

Commercial energy solutions that pay off

Vineyard in France cools wine using solar energy
 There is often a false belief that a PV system can only function if the solar modules are south-facing. The photovoltaic system at the „La Lovière" vineyard proves the opposite: the modules were mounted facing three different points of the compass on seven different roofs.
