GCL Solar Power Generation Prospects

Overview

Will GCL-Si build a solar panel manufacturing plant?

China-based solar manufacturer GCL System Integration Technology (GCL-SI) is reportedly planning to build a solar panel manufacturing plant with an investment of CNY18bn (\$2.54bn). GCL System's new facility will have the capacity to produce 60GW of solar panels annually. Credit: Michael Wilson.

How many solar panels will GCL system produce a year?

GCL System's new facility will have the capacity to produce 60GW of solar panels annually. Credit: Michael Wilson. China-based solar manufacturer GCL System Integration Technology (GCL-SI) is reportedly planning to build a solar panel manufacturing plant with an investment of CNY18bn (\$2.54bn).

When will GCL integration start manufacturing solar panels?

GCL Integration expects to begin manufacturing activities at the new facility in October. With the new factory, its total solar panel manufacturing capacity will reach 30 GW. The company also announced plans to raise CNY 6 billion through a private placement of shares.

Will GCL-Si's new solar plant increase its production capacity?

Once completed, the solar manufacturing plant is expected to increase GCL's panels production capacity by over nine times from 7.2GW, according to data from BloombergNEF. In July 2017, GCL-SI commenced operation at its 600MW solar cell plant in Vietnam. The new solar cell facility supports GCL-SI to cater to international markets.

Who is GCL New Energy International Limited?

GCL New Energy International Limited, an indirect wholly-owned subsidiary of the Company, provided asset management and administrative services to GCL Solar Energy Limited for its overseas operations in the US. GCL Solar Energy Limited is a subsidiary of GCL-Poly.

How did GCL new energy perform in the first half of 2019?

GCL New Energy resolutely faced the complex and severe situation as well as various challenges arose domestically and worldwide in the first half of 2019, while through sparing no effort to promote the strategic transformation and striving forward to achieve its development goals, encouraging results were accomplished.

GCL Solar Power Generation Prospects

- ✓ 50KW/100KWH
- ✓ HIGHER POWER OUTPUT IN OFF-GRID MODE
- ✓ CONVENIENT OPERATION & MAINTENANCE
- ✓ PRE-WIRED

ICRA predicts India's renewable energy installed capacity to reach

22 ?????· However, delays in land acquisition and transmission connectivity remain major challenges, potentially impacting the industry's growth prospects. Over the next five years, ...
