Burkina Faso: Solar energy project gets concessional financing ...

The construction of a solar PV plant in Burkina Faso - one of the country's first independent power producer projects - is set to be accelerated after receiving a concessional financing package. The project is to design, construct and operate an 18MW solar power plant in Dédougou, 250 kilometres west of the capital, Ouagadougou.

Burkina Faso: towards the creation of 300 MWp solar parks

Burkina Faso is preparing to host large-scale solar parks with a combined capacity of 300 MWp in the cities of Kaya, Koupéla and Ouagadougou. Estimated at \$370 million by the World Bank, the projects are expected to be successfully implemented, and not be disrupted by the coup d'Etat that hit the country last January, according to developers, the ...
