In Scramble for Clean Energy, Europe Is Turning to North Africa

Western Sahara Resource Watch, a Brussels-based NGO allied to the independence movement, estimates that by the end of the decade occupied Western Sahara could be supplying half of all Morocco's wind energy and a third of its solar energy, much of it headed for Europe. Morocco insists that the territory is part of Morocco.

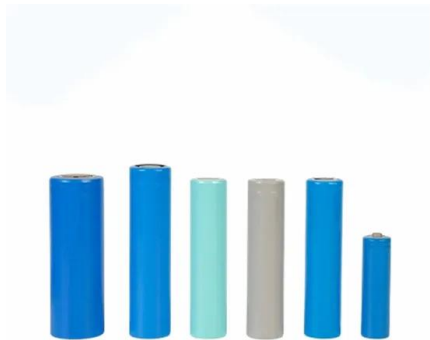

Spain's Western Sahara pivot raises energy supply fears

With Morocco welcoming Spain's move, the potential benefits for both countries are clear. However, the policy change has unleashed a fierce domestic backlash in Spain as well as an angry response from gas-rich ...

Tensions Over Western Sahara Will Keep Escalating In The Short ...

At Fitch Solutions, we expect tensions over the sovereignty of Western Sahara will continue to rise in the coming quarters, with economic and geopolitical knock-on effects for Morocco. This has prompted us to revise down our Short-Term Political Risk Index (STRPI) score for Morocco from 64.8 to 63.1 out of 100 (see chart below). Western Saharan

Spain's Western Sahara pivot raises energy supply fears

With Morocco welcoming Spain's move, the potential benefits for both countries are clear. However, the policy change has unleashed a fierce domestic backlash in Spain as well as an angry response from gas-rich Algeria. Morocco and Spain's often rocky relationship had been in deep crisis since late 2020, when the U.S. administration of Donald Trump announced ...

Solar panels in Sahara could boost renewable energy but damage ...

This scenario might seem fanciful, but studies suggest that a similar feedback loop kept much of the Sahara green during the African Humid Period, which only ended 5,000 years ago.. So, a giant solar farm could generate ample energy to meet global demand and simultaneously turn one of the most hostile environments on Earth into a habitable oasis.

The energy transition is a generation-defining challenge. But we believe it's not just what it averts, but what it enables in our economy and society, that matters. We envision a world in which energy is clean, affordable and abundant, powering a new wave of industrial growth and social opportunity.. The energy industry's transition to clean energy is a fundamental enabler for ...

Meta Platforms contracts Invenergy for 760MW renewable energy

Meta head of global energy Urvi Parekh stated: "Surpassing the 1GW milestone in renewable energy procurement from Invenergy is a testament to Meta's commitment to matching our growing power needs with clean energy." "Energy demand is soaring -- and Invenergy is excited to work with Meta to deliver long-term, clean energy solutions
