

Solar Energy South Africa

Greystone energy systems inc French Polynesia

Overview

Who is Greystone energy systems?

Greystone Energy Systems Inc. is internationally recognized as one of the largest ISO registered manufacturers of HVAC sensors and transducers for Building Automation Management Systems.

When did Greystone become a global company?

Since its inception, Greystone's leadership has had a global focus on growth, expanding into the United States in 1987, into South East Asia shortly later in 1989, and finally expanding into the Middle East in 1998.

Why should you choose Greystone?

Distributors, contractors, and facility engineers have trust in the Greystone brand delivering quality assured and competitive priced product to their commercial and light industrial projects. Greystone is one of North America's largest ISO registered manufacturers of HVAC sensors and transmitters.

DSD Series - Duct Smoke Detector - Greystone Energy Systems

4-Wire Photoelectric, integrated low-flow technology Low flow air velocity rating from 100 to 4000 FPM Plug-in sensor offers superb false alarm immunity and the latest sensor technology 24 VAC/DC or 120/240 VAC operation Two SPDT Form-C relay contacts Easy and quick mounting to round or rectangular ducts One easy-access Test/Reset button and improved LED status ...

PGS Series - Gauge Pressure Transmitter

1/4" NPT NIST traceable calibration Weather resistant for harsh environments Fast response time Capacitance sensing element Ranges -14.7 through 10,000 PSIG (-101.4 through 68947.6 kPa) Accuracy to $\pm 0.25\%$ FSO DC inputs, current output Compensated temperature range: -20°C to 80°C (-4°F to 176°F) Operating temperature range: -40°C to 85°C (-40°F to 185°F) 17-4PH ...

A Bemsiq Company - Greystone Energy Systems

On September 29th, 2021, Greystone Energy Systems Inc. and our international subsidiaries were acquired by Bemsiq. Bemsiq is a group of innovative and fast-growing companies providing products in building automation and metering.

PMDT Series - Duct Particulate Matter Sensor

Product Description. The PMDT Duct Particulate Matter Sensor uses an optical sensor based on laser scattering principles and features innovative contamination resistance technology to perform highly accurate and reliable PM measurements.

[PS Series - Regulated DC Power Supplies](#)

Product Description. The PS100 series power supplies are factory calibrated to output either 12 or 24 Vdc as indicated on the label, these values may be adjusted by rotating the potentiometer on the circuit board while monitoring the output with a voltmeter.
