Guam green planet solar

Overview

Will Guam get 330 megawatts of solar power by 2028?

Workers could be seen at the site of the Mangilao Solar Project on Aug. 12, 2021. The Guam Power Authority wants to award two major contracts for solar farms in Dededo and Santa Rita-Sumai, the first two in a series of projects which are anticipated to add a huge 330 megawatts of power to the grid by 2028.

Will Guam become 100 percent renewable by 2045?

Dirt was turned on the Ukudu power plant project and a ribbon was cut for the official launch of the Mangilao solar farm during back-to-back events, which officials said marked “a tremendous step” toward Guam’s goal to reduce reliance on fossil fuel and become 100 percent powered by renewable energy by 2045.

Does core tech solar have a legal dispute with Guam Waterworks Authority?

Commissioners did raise some concerns about the award to Core Tech Solar, as affiliate company Core Tech International is currently locked in a multi-million-dollar legal battle with the Guam Waterworks Authority. GPA needs approval from the CCU, before taking the contract awards to the rate-setting Public Utilities Commission for final approval.
