Guam surge energy

Overview

What does the Guam Energy Office do?

The Guam Energy Office, as a line agency within the Executive Branch, implements energy programs for the benefit of the island community using grants awarded by the U.S. Department of Energy - the State Energy Program (SEP) and the Weatherization Assistance Program (WAP).

How is energy consumed in Guam?

In Guam, the consumption of energy is heavily influenced by its remote location. Almost all energy is reliant on imports of petroleum products for use in transport and electricity. Guam does not have any domestic production of conventional fuels such as oil, natural gas, or coal.

When will the Guam Energy Office reopen?

The Guam Energy Office will reopen for business starting Monday, June 1, 2020 from 8:00 am to 5:00 pm. Effective June 1, 2020, all GovGuam offices, agencies, and departments will recommence public operations. Continued compliance with Social Distancing rules will be strictly enforced, thus services will be limited to those with appointments only.

How much power does Guam generate?

Guam has a rated generating capacity of 560 MW, more than twice its historical highest load. This power is supplied by several plants burning residual fuel oil operated for the Guam Power Authority by independent power providers. In 2015, electricity in Guam cost 2.5 times as much as on the U.S. mainland.

Does Guam use fossil energy?

3 Guam has no fossil energy resources and meets nearly all of its energy needs—including the fuel for generating most of its electricity—with imported petroleum products. 4, 5 However, Guam is increasing its use of renewable

energy resources for electricity generation. 6, 7.

How can GPA help Guam?

GPA wants to help: Keep your home cool and lower your energy consumption. Decrease Guam's use of fossil fuels, reduce pollution, and protect our natural resources. Keep more money on island to help our local economy. Online applications are available to Residential Rate Schedule R and Commercial Rate Schedules G and J customers at this time.

Has anyone invested through Serge Energy? Need tips

Roughly two years ago I found a really nice investment opportunity (guaranteed minimum 10% annual ROI over the course of 5 years) in wooden pellets through Serge Energy, a company based in Finland. I was a bit skeptical, so I did a ton of googling around and decided to eventually go for it. The amount I invested was fairly small, lets say 5k.
