These indicative prices show how much it might cost to have solar PV installed on your roof and how much power you're likely to generate. Contact a solar PV installer for an accurate quote for your property.

Islanders have been generating and storing their own electricity with solar panels and battery storage systems for several years now, keeping their homes powered while reducing dependence on expensive, traditional energy sources, helping Guernsey get closer to its 2050 target of net zero.”.

GUERNSEY could be using large grid-scale batteries to store energy as early as 2030 – despite the island’s draft electricity strategy stating they would not be ‘cost optimal’.

In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited’s newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That’s enough electricity to supply power to approximately 35 homes.
