More giant 'water batteries' planned under scheme

Britain could get a swathe of giant so-called "water batteries" in the coming years, under a new scheme to boost investment into clean energy storage. Ministers have given the green light to plans which make it less risky to develop and invest in pumped storage hydropower, a way of storing energy using reservoirs.

Field bags £46m in financing to build 110MW portfolio of battery

Launched by energy supplier Bulb's co-founder Amit Gudka in early 2021, Field - initially called Virmati Energy - is focusing on developing a portfolio of BESS assets in the UK. Having recently expanded its senior team, Field is aiming to reach 1.3GW of operational battery storage assets in the UK by 2024.

Projects

Field will finance, build and operate the renewable energy infrastructure we need to reach net zero -- starting with battery storage. Home Mission Projects If you're a landowner, developer or member of a local community interested in developing battery storage, find out more about working together. Development.

Field secures £77m to rapidly

build the battery storage needed to

Field, the battery storage company, has raised £77m of investment to rapidly build out renewables infrastructure across the UK. Against the backdrop of soaring energy prices and growing uncertainty around energy security, this will provide much-needed progress towards creating a greener, more reliable grid. We believe TEEC's debt

UK renewable energy entrepreneur's new battery

Battery storage startup Field has secured a pipeline of 160MW of battery storage sites in the UK, and begun construction of its first 20MW site in Oldham, England. The company - originally called Virmati Energy - was launched at the beginning of 2021 by Amit Gudka, co-founder of independent renewable energy retailer Bulb, which has more

The Career Opportunities in Energy Storage

That got the team here thinking about all the different roles available at Field. Energy storage is a fast growing and exciting industry with a broader range of career opportunities than you might expect. From civil engineering to data science, there are roles to suit a range of skills, interests and personalities.

Field acquires 20MW battery energy storage project as its ...

Battery energy storage company Field has acquired another asset, bringing its total pipeline to 775MW/1,510MWh after just over a year of

operation. The latest acquisition is a 20MW/40MWh battery site in Newport, South Wales.

Bulb co-founder to announce £100 million raised for Field Energy

UK energy storage developer Field, has secured a £100 million (US\$128 million) fundraising round for expansion according to Sky News. The firm, set up by the co-founder of utility Bulb, Amit Gudka, after its collapse in 2021, secured the capital from DIF Capital Partners, a Dutch infrastructure investor.

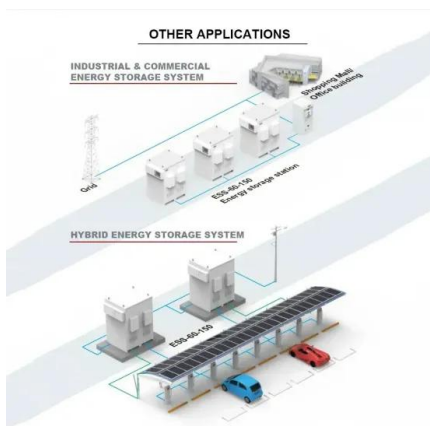

Demystifying the World of Battery Storage , Field

Battery energy storage systems are game-changers in the transition to renewable energy, but also relatively new to the renewable energy space. We've only just begun to scratch the surface on energy storage systems, so stay tuned for the next instalment of the series: a deep-dive into how these battery storage systems actually power up the UK.

Field unveils 160MW storage pipeline following £10m fundraise

Field has secured a pipeline of 160MW of battery

storage sites in the UK, and begun construction of the first of these, the 20MW Oldham site. The company - originally called Virmati Energy - was launched at the beginning of 2021 by Bulb co-founder Amit Gudka. In its first six months it has raised £10 million in pre-seed capital and Series A funding, and is set to ...

Field secures £77m to rapidly build the battery storage needed to

Field, the battery storage company, has raised £77m of investment to rapidly build out renewables infrastructure across the UK. Against the backdrop of soaring energy prices and growing ...

UK: Big BESS news from Field, Cero, PDP, Low Carbon and more

Battery energy storage system (BESS) developer Field has announced that it has acquired the Hartmoor BESS from Clearstone Energy. The 200MW/800MWh project, set to be located on the outskirts of Hartlepool in the north east of England, was granted planning consent in 2023.

SemperPower, Corre, Powerfield with Netherlands BESS projects

The company is aiming to have 1GWp of solar and 2GWh of energy storage in the Netherlands by 2028, alongside EV charging points via subsidiary PowerGo. The solar and storage

project in Wannepervee combines 28MWp of solar with a 52MWh BESS. It is developing a 12MWh project near another of its solar PV plants, in Emmen.

UK battery storage developer Field on grid and market mechanisms

We hear from Chris Wickins, technical director at UK-based battery storage developer-operator Field about how the grid interconnection question and market mechanisms are developing in Europe's most advanced energy storage market. Energy-Storage.news' publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20

Fort Carson Energy Security and Resiliency Assessment , Guernsey

The Energy Security and Resiliency model identified five mission-critical areas and several individual mission-critical buildings at Fort Campbell and analyzed two main options: (1) a centralized electrical generator with microgrid capability, solar PV generation and battery energy storage system, and fuel storage tanks, and (2) decentralized

Battery Energy Storage Systems Development

BESS Singapore. Of the 11 ASEAN members, Singapore is taking the lead in the battery energy storage systems (BESS) space. Earlier this year, the city-state launched the region's largest battery energy storage system (BESS). Construction of the 285MWh giant container-like battery system was built in just six months, becoming the fastest BESS of its ...

Redstone Arsenal Energy Security and Resiliency... , Guernsey

The RSA Electrical and Thermal Energy Security model analyzes each mission-critical building for electric and thermal energy requirements and existing resources such as on-site generators, on-site boilers, and fuel storage tanks and provides four options for electric and ten options for thermal energy systems.

Guernsey Energy , Energy for Every Generation

We've been providing energy solutions to the Channel Islands for almost 200 years. Do you want to learn how you can save on your energy costs with Guernsey Energy? visit our website and view & buy our products or services.

UK BESS news from Harmony Energy, Envision, Field, ...

Envision Energy to supply BESS for 50MWh Field project. Envision Energy has partnered with renewable energy infrastructure firm Field to develop a 50MWh battery energy storage system (BESS) in Blackburn, ...

Field to build 40MWh battery storage site in South Wales

Field Energy has announced that the construction of a 40MWh battery storage site in Newport, South Wales is to begin construction in the coming weeks. The news follows Clarke Energy signing contracts for construction, installation and supply of balance of plant and Trina Storage to provide a battery storage system for the site.

Energy

The Energy Policy 2020-2050 established that the vast majority of Guernsey's energy supplies will come from clean, low carbon sources by 2050 at the latest, local renewable generation will be encouraged and residual emissions will be offset. In order to deliver this, the six following objectives were agreed:

[Energy Optimization , Guernsey](#)

Guernsey provides a wide range of engineering, architecture and consulting services to multiple market sectors. control peak electric demand other optimization modeling techniques used by our team includes appropriately sizing the energy storage systems, load shifting, demand management techniques, and development of

load-shedding plans.

Field acquires battery storage project from Clearstone Energy

Field acquired the 200 MW/800 MWh Hartmoor battery storage project from leading independent developer, Clearstone Energy. The project becomes the latest addition to Field's 11 GW of battery storage projects in development and construction across Europe. Located on the outskirts of Hartlepool, in

Wärtsilä's high energy BESS solution to get

Energy-Storage.news' publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024. This year it is moving to a larger venue, bringing together Europe's leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place. Visit the official site for more info.
