## Method for Evaluation of the Energy Potential and Sizing of

...

energy is acute in Guinea. However, its hydro-energy potential is enormous and the hydrographic network is very dense (1165 rivers). From these resources, we can develop a hydroelectric potential estimated at 6,000 MW for guaranteed energy of 19,300 GWh/year [12]. To date, despite the construction of the Kaléta (240 MW),
