

Solar Energy South Africa

Guyana pavilion renewables

Overview

How many solar homes are distributed in Guyana?

The GEA supported the implementation of a massive electrification project to supply, deliver, and distribute 30,000 solar home energy systems to hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

Is Guyana a good place to invest in hydropower?

Guyana is exploring other hydropower developments due to its extensive river networks to meet the growing energy demands of the country. The government offers tax concessions and capital write-offs for hydropower investments in addition to wind and solar farm investments.

Is offshore wind a viable option in Guyana?

Guyana's geographic location makes offshore wind a viable alternative for renewable energy production. However, current regulatory hurdles are likely to stymie investment in this technology in Guyana.
